You are trapped. No matter how hard you work and no matter how many hours you put in, you never seem to get ahead.

Exhibit N – Computer Attacks

Emails that refer to friends and family of the plaintiff. The plaintiff knows who 'Ed' is (Mr. Ed Rutherford of Bristol, TN) and also knows that there are few more harmless, stable, hard working and innocent people in the nation. His most serious crime is golf addiction. If the defendant has a problem with 'Ed', then it is time for the defendant to say exactly why. Notice how these emails arrive from entirely different domains and apparent senders.
